

FIG. 1

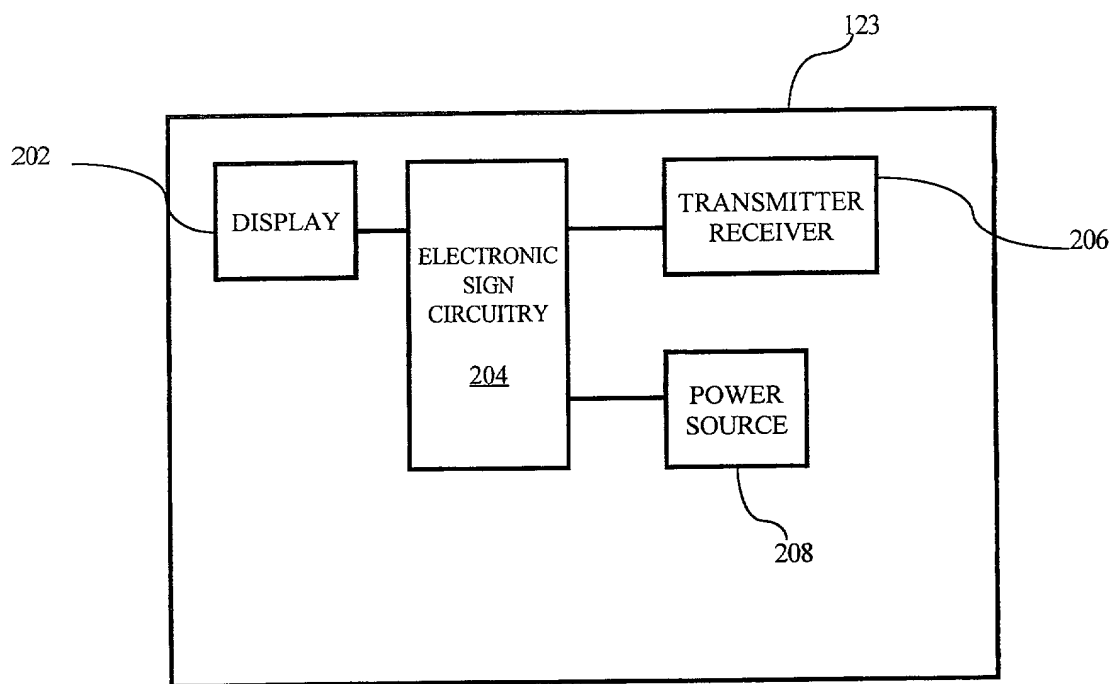

FIG. 2

FIG. 3 is a block diagram of a system for processing electronic signs and promotional messages. The system includes a central processing unit (109) that receives data from a database (107) and a promotional message database (111). The central processing unit (109) is connected to a display (123) and a printer (122). The display (123) shows electronic signs, and the printer (122) prints electronic promotional letters (EPL).
